Client Testimonials

“

I have been liaising with the Target Recruit team for over 3+ years. They have a committed team. We have approached them for customization, reports, and other processes and they have always come through. Turnaround time in addressing and resolving our issues has been great. I met with their CEO in LA. Overall a very committed and nice team.”

-Suja Sadhasiva, Corporate Controller, YORK Search Group

“

In my 16 years of recruiting, I have used a number of applications. When I opened my own company and needed a recruiting application that could be used for posting jobs, gathering applicants, managing candidate / client contact activity, reporting, etc., I chose TargetRecruit. The application is easy to install, is highly configurable and the customer service team at Avankia is tops! They are quick and accurate in their replies and really seem to understand what I am trying to accomplish. It also helps me manage my marketing campaigns to build my client database. I will continue to recommend TargetRecruit to others!”

-Gary Kaufman, Managing Director, ExcelliSearch Inc.
